Safe Infant Sleep Environment Checklist

Every caregiver can plan for safe infant sleep.

Every night. Every nap. Every feeding. Every time.

Share this information with grandparents, other family members, and childcare providers so that everyone caring for your baby follows safe infant sleep practices.

~	Check for the following:		
	Baby is placed on their back for every sleep, including naps.	Mattress that fits well and has no spaces larger than two fingers between the	
	Baby's sleep area is in your room , close to your bed.	mattress and the side of the crib or bassinet.	
	Safety-approved* non- inclined sleep surface that is firm, flat, and covered with a well-fitted sheet.	Smoke-free space at a comfortable room temperature for a lightly clothed adult.	
×	Remove the following un from baby's sleep area:	safe items 💢	nove the following items from within ch of baby's sleep area:
×	_	ısafe items 🔀	
×	from baby's sleep area:		ch of baby's sleep area: Drapes, curtains, window blinds, or shutters Crib mobile or other items attached to or
×	from baby's sleep area: Pillows		ch of baby's sleep area: Drapes, curtains, window blinds, or shutters
×	from baby's sleep area: Pillows Quilts, comforters, or blan	kets	ch of baby's sleep area: Drapes, curtains, window blinds, or shutters Crib mobile or other items attached to or hanging over crib Electrical cords Furnace vents, radiators, space heaters, or
×	from baby's sleep area: Pillows Quilts, comforters, or blan Crib bumpers	kets r soft items	ch of baby's sleep area: Drapes, curtains, window blinds, or shutters Crib mobile or other items attached to or hanging over crib Electrical cords

If you bring baby into your bed for feeding or comforting, remove all soft items and bedding before you start. If you fall asleep with baby in your bed, put them back on their own sleep surface as soon as you wake.
