A guidance guide for early childhood leaders: strengthening relationships with children, families, and colleagues	3.0	Gartrell, Dan	eBook (117 p.)	2017	In this follow-up to <i>Guidance for Every Child</i> , this book expands on the advice that children need guidance rather than discipline. Guidance is teaching for healthy emotional and social development. On a day-to-day basis as conflicts occur, guidance is teaching children to learn from their mistakes, rather than punishing them for the mistakes they make; helping children learn to solve their problems, rather than punishing children for having problems they cannot solve. It explores secure relationships as the foundation for guidance and how to build them with children, families, and colleagues. It provides strategies on how early childhood professionals can help others to gain the emotional health they need to be socially responsive, and then support the social skills they need to build relationships and solve problems cooperatively. Inclusion includes us: building bridges and removing barriers in early childhood classrooms	3.0	Huber, Mike.	Book & eBook (152 p.)	2022	This book includes real-life examples, practical strategies, and prompts for reflective practice to help educators include everyone - children and adults - in their programs/classrooms. Educators can create true inclusion and belonging when they replace binary thinking with constellation thinking, or the understanding that each person in the classroom has a combination of strengths, preferences, needs, and interests that creates a unique constellation. Moving to constellation thinking means thinking of each person in the classroom as an individual, regardless of diagnosis, age, culture, or any other factors. The classroom becomes a community where everyone is a contributing member, and everyone belongs. Life with baby: Parenting from birth to 12 months	0.5		DVD (24 min.)	2009	This program demonstrates the ways babies are born ready to think, feel, and learn. Right from the start, a baby's brain is growing and developing. They communicate their needs to their caregivers. They learn through experience and by processing information through their five senses.	Parenting and Working with Families	DD0824
Lost and found: young fathers in the age of unwed parenthood	8.25	Florsheim, Paul	Book (415 p.)	2020	This book shows a diverse group of young men whose stories represent different trajectories of young fatherhood. The stories featured begin soon after the young men find out their partners are pregnant and move in different, and often unexpected, directions. Some young men - even those with significant problems - grow into parenthood and speak eloquently about connecting with their children. A few speak with candor about becoming disconnected and lost. In six parts, it weaves the individual stories into the larger story of fatherhood in America today.	Parenting and Working with Families	HQ 756.7 F639 2020 ECI
Magic of everyday moments: seeing is believing - series 1	0.5		DVD (23 min.)	2014	Includes 4 segments: <i>Brain wonders: nurturing healthy brain development from birth</i> explains the importance of making a baby feel safe and secure. <i>Literacy skills: the roots of reading start at birth</i> makes clear the importance of developing language and literacy from birth. <i>Power of play: building skills while having fun</i> shows how children learn by playing. <i>Temperament: what makes your child tick?</i> urges parents to respect their child's temperament. On being and well-being infant/toddler care and education	3.25	McMullen, Mary Benson	Book & eBook (160 p.)	2022	This book is an ideal professional development resource for pre- and in-service birth to age 3 professionals. It shares lived experiences of being in four distinctly different baby rooms as a researcher over extended periods of time. It frames each story around elements of well-being and asks readers to consider whether and how environmental and relational factors supported or hindered the physical, psychological, and emotional health of the children and adults. It encourages readers to see themselves in the stories, to consider how they may have acted in the circumstances described, and to deliberate on their own practices and beliefs.	Early Intervention Skills and Strategies	LB 1139 M478o 2022 ECI EBSCO eBook
Parenting and substance abuse: developmental approaches to intervention	11.25		Book & eBook (560 p.)	2013	This book reports on pioneering efforts to move the treatment of substance-abusing parents forward by embracing their roles and experiences as mothers and fathers directly and continually across the course of treatment. It covers important new strides among researchers and clinicians to address and close the increasingly recognizable gap between addiction and developmental science. Using treatment models for parents, primarily pregnant and parenting women, it covers the theoretical understandings of how addiction impacts the developmental processes of parenting. It also discusses risk assessment, evaluation, and a variety of interventions and therapies.	Parents and Their Children Affected by Opioids, Alcohol, and Other Drug	WM 270 P228 2013 ECI EBSCO eBook The print book is a 2018 reprint of the 2013 edition. No new information is included.
