January 2023

Introduction

The Hospital Survey Program in the Center for Health Statistics, Texas Department of State Health Services, has completed its analysis of hospital data for the purpose of certifying nonprofit hospitals or hospital systems for limited liability under Texas Health and Safety Code, §311.0456. Thirty-hospitals requested certification. Each of the requesting hospitals will be notified, by mail, on the determination of whether the statutory certification requirements were met. The certification issued under Texas Health and Safety Code §311.0456 to a nonprofit hospital or hospital system takes effect on December 31, 2022 and expires on the anniversary of that date.

Certified for Limited Liability

One nonprofit hospital system comprised of six hospitals and 10 nonprofit hospitals were found to be eligible for certification of limited liability based on information they provided via survey to the Hospital Survey Program. These entities met the statutory requirements for certification by providing charity care in an amount equal to or greater than 8% of their net patient revenue and providing 40% or more of the charity care in their counties.
