

EMS Acute Stroke Routing Resource Document - Suburban

LKW - Last known well; LVO - Large Vessel Occlusion; * If LVO suspected, consider air transport from scene response to CSC/TSC

Disclaimer: Regional stroke protocols are developed and implemented based on local guidelines, medical directors' recommendations, and Regional Advisory Councils (RACs). Variations in protocols may exist between different regions. For the most accurate and applicable guidelines, please consult the specific protocols established by your local health authorities and medical professionals.
