

FREE HIV and STD self-collection test kit

Order your free, convenient, and confidential self-collection test kit today. Receive the kit discreetly at a location of your choice, complete with clear instructions for sample collection and a prepaid return shipping label.

STEP 1

Create an account in the portal at testfortexas.org and complete the health assessment form.

STEP 2

Collect your sample, complete your patient information card, and ship it back for testing on the same day of collection. Return your sample during the week to avoid weekend delays.

STEP 3

Access your results from the secure portal in seven business days from the date your sample arrives at the lab.

STEP 4

If your test comes back positive, you will be connected to a provider to talk about treatment.
