Changes to the Texas DSHS Laboratory Fee Schedule

Dear Colleague,

The Department of State Health Services (DSHS) Public Health Laboratory Division is revising laboratory testing and fees to meet business needs. These revisions are proposed to take effect **January 1, 2024**. Stakeholders may submit comments until **December 31, 2023**, to LabInfo@dshs.texas.gov or the following mailing address:

Public Health Laboratory Division, MC 1947
Texas Department of State Health Services
P.O. Box 149347
Austin, Texas 78714-9347

Newborn Screening Fee Change Effective January 1, 2024:

The cost of PAID newborn screening (NBS) kits will be increased by 8% (from \$63.55 to \$68.63). Paid NBS kits, ordered on or after January 1, 2024, would be billed at the new price of \$68.63. DSHS is giving NBS providers advanced notification of the fee increase to allow providers time for negotiating inclusion of the new rate as part of their insurance contracts. The purpose of this increase will be to support increased costs for operations and is not for the addition of any new conditions to the DSHS newborn screening panel.

Posted Fee Schedules:

The new fee schedule will be posted on the DSHS Laboratory website by January 1, 2024. To view the current Austin and South Texas DSHS Laboratory fee schedules, please use the following link: <http://www.dshs.texas.gov/lab/fees.shtm>

Thank you for your continued partnership and support.

Sincerely,

A handwritten signature in cursive script that reads "Grace Kubin".

Grace Kubin, Ph.D

Associate Commissioner, Public Health Laboratory Division
Laboratory Director
