

December 1, 2019

The Honorable Greg Abbott
Governor of Texas
Texas State Capitol Building
1100 Congress, Room 2S.1
Austin, TX 78701

Dear Governor Abbott:

The Department of State Health Services (DSHS) commends the 86th Texas Legislature for providing historic support to Texas' Newborn Screening (NBS) program, which helps protect our youngest Texans from 54 debilitating and life-threatening diseases and conditions through early detection.

Senate Bills 747 and 748, 86th Texas Legislature, Regular Session, 2019 established the Newborn Screening Preservation Account, which sets aside funds to add new conditions to the NBS panel as they are approved at the federal level. Every two years, DSHS must report to the Legislature on funds used from this account, with the first report due by December 1, 2019. At this time, DSHS has not used any funds from the account; however, we would like to share our most recent testing achievement and plans to add tests in the future.

On August 5th, DSHS implemented screening for X-linked adrenoleukodystrophy, which was made possible through funds provided by Senate Bill 500. Additionally, House Bill 1 allows us access to funds to expand the NBS panel and implement additional NBS disorders. DSHS is working to request this funding and if approved, DSHS plans to expand the NBS panel to include spinal muscular atrophy by summer 2021 and to begin infrastructure planning for Pompe disease and mucopolysaccharidosis I in the next biennium.

If you would like more information about the NBS program, or have questions, Imelda Garcia, Associate Commissioner for the Division for Laboratory and Infectious Disease Services, serves as lead staff on this issue. Ms. Garcia may be reached at ImeldaM.Garcia@dshs.texas.gov or at 512-776-7679.

Sincerely,

A handwritten signature in blue ink that reads "John Hellerstedt". The signature is fluid and cursive, with a long horizontal line extending to the right.

John Hellerstedt, M.D.

December 1, 2019

The Honorable Dan Patrick
Lt. Governor of Texas
Texas State Capitol Building
Room 2E.13
Austin, TX 78701

Dear Governor Patrick:

The Department of State Health Services (DSHS) commends the 86th Texas Legislature for providing historic support to Texas' Newborn Screening (NBS) program, which helps protect our youngest Texans from 54 debilitating and life-threatening diseases and conditions through early detection.

Senate Bills 747 and 748, 86th Texas Legislature, Regular Session, 2019 established the Newborn Screening Preservation Account, which sets aside funds to add new conditions to the NBS panel as they are approved at the federal level. Every two years, DSHS must report to the Legislature on funds used from this account, with the first report due by December 1, 2019. At this time, DSHS has not used any funds from the account; however, we would like to share our most recent testing achievement and plans to add tests in the future.

On August 5th, DSHS implemented screening for X-linked adrenoleukodystrophy, which was made possible through funds provided by Senate Bill 500. Additionally, House Bill 1 allows us access to funds to expand the NBS panel and implement additional NBS disorders. DSHS is working to request this funding and if approved, DSHS plans to expand the NBS panel to include spinal muscular atrophy by summer 2021 and to begin infrastructure planning for Pompe disease and mucopolysaccharidosis I in the next biennium.

If you would like more information about the NBS program, or have questions, Imelda Garcia, Associate Commissioner for the Division for Laboratory and Infectious Disease Services, serves as lead staff on this issue. Ms. Garcia may be reached at ImeldaM.Garcia@dshs.texas.gov or at 512-776-7679.

Sincerely,

A handwritten signature in blue ink that reads "John Hellerstedt" followed by a long horizontal flourish.

John Hellerstedt, M.D.

December 1, 2019

The Honorable Dennis Bonnen
Speaker, Texas House of Representatives
Texas State Capitol Building
Room 2W.13
Austin, TX 78701

Dear Speaker Bonnen:

The Department of State Health Services (DSHS) commends the 86th Texas Legislature for providing historic support to Texas' Newborn Screening (NBS) program, which helps protect our youngest Texans from 54 debilitating and life-threatening diseases and conditions through early detection.

Senate Bills 747 and 748, 86th Texas Legislature, Regular Session, 2019 established the Newborn Screening Preservation Account, which sets aside funds to add new conditions to the NBS panel as they are approved at the federal level.
