In addition to the requirements of 25 TAC §289.226; 25 TAC §289.232; or 25 TAC§289.233, as applicable, each applicant must apply and receive authorization for mobile services before beginning mobile service operation. The following must be submitted.

- An established main location where the machine, records, etc. will be maintained for inspection.
- A sketch or description of the normal configuration of each X-ray unit's use, including the operator's position and any ancillary personnel's location during an exposure. If a mobile van is used with a fixed unit inside, furnish the floor plan indicating protective shielding and the operator's location.
- Each application for mobile services used in the healing arts, including dental and veterinary, must submit a current copy of the applicant's Operating and Safety Procedures regarding radiological practices for protection of patients, operators, employees, and the public*.
