Data is submitted to meet statutory requirements. Conclusions could be erroneous due to communication difficulties in reporting complete data by reporting constraints, subjectivity in assignment of codes, system mapping and normal clerical error. Deadlines may prevent inclusion of all applicable cases. This represents claims data at the time of preset deadlines. Data may be incomplete due to field limitations and be cautiously used to evaluate health care quality and compare outcomes.

PROVIDER: Texas Health Huguley Hospital

THCIC ID: 047000

THCIC audits have been corrected with the FER reported 100% accuracy.
There may

be duplicates or missing claims. An issue with payer mapping is being
researched. Due to the difficulty in rerunning informational claims in Epic
without negatively impacting operations, any attempt to rerun claims will
cause

significantly decreased volume and will not be an accurate accounting of our

volume.

potential inaccuracies in attributing outcomes to one physician. We review the

data concerns: Charges accrued before admit or after discharge could potentially

be missing from the database; THCIC allows for one operating physician assignment per encounter, not per procedure, so a surgeon could potentially be

assigned to a procedure they did not perform; THCIC allows for a limited number

of diagnoses and procedures. Patients with more than the limit will be missing

information from the database.
