

August 20, 2026

Dear Texas Cancer Reporters,

The Texas Cancer Registry (TCR) has finalized the 2026 cancer reporting requirements and necessary resources. This letter outlines important information about changes to reporting requirements that go in effect in 2026.

Timely Reporting Calendar

The 2026 Timely Reporting Calendar is available on our [Hospital Reporting webpage](#).

Modified (M) Record Update

TCR is accepting modified (M) records as of 2022 admission year and recommends they be submitted quarterly.

Data Item Updates

TCR continues to require AJCC TNM data items for analytical cases from facilities accredited by the American College of Surgeons (ACoS). For facilities that are not ACoS accredited, AJCC TNM data items are not required, and the fields are no longer on our Web Plus v26 display.

The TCR collects all data items required by the National Program of Central Registries (NPCR) and the Surveillance Epidemiology and End Results (SEER) programs. Below are the newly required data items for 2026.

Data Items Required for v26 or later, not previously required (for cases diagnosed 1/1/2026 and forward)	
NAACCR Item #	Item Name
225	Sex Assigned at Birth
1176	Spread Through Air Spaces (STAS)
1178	Residual Cancer Burden (RCB)
1179	Residual Cancer Burden Class

Data Items no longer required for v26 (for cases diagnosed 1/1/2026 and forward)	
NAACCR Item #	Item Name
3821	Chromosome 3 Status
3822	Chromosome 8q Status
3834	Extravascular Matrix Patterns
3859	HIV Status
3881	LN Laterality
3891	Microvascular Density
3894	Multigene Signature Method
3895	Multigene Signature Results
3903	Oncotype DCIS Recurrence Score
3905	Oncotype DX Risk Level DCIS
3906	Oncotype DX Risk Level Invasive
3908	Percent Necrosis Post Neoadjuvant

2026 TCR Guidebook

The [2026 Cancer Reporting Guide](#) is a supplemental instructional guide to the [2026 SEER Program Coding and Staging Manual](#). The Guide contains important updates for cases diagnosed January 1, 2026, and forward; coding and reporting requirements to TCR as mandated by NPCR and SEER; and other vital information.

Version 26A Edits Metafile and Web Plus

Our Version 26A edits metafile has been posted on the NAACCR Edits Clearinghouse webpage. This allows software vendors to be notified when a new central registry metafile is posted. Our revised V26A metafile was posted on our [Commercial Software Submissions](#) webpage on August 4, 2026.

TCR implemented the NAACCR v26 upgrade of Web Plus on July 23, 2026. The following are changes to data items in our v26 Web Plus display.

Data Items in Web Plus v26 required for 2027 cases and forward	
NAACCR Item #	Item Name
1136	Pediatric Primary Tumor
1137	Pediatric Regional Nodes
1138	Pediatric Mets

Additional changes in v26 Web Plus

Training Opportunities

TCR is excited to sponsor an additional training opportunity for our Texas cancer reporters. This virtual training, presented by Denise Harrison, LLC, will increase abstracting and coding skills for intermediate to advanced level reporters.

This additional training opportunity will be held on Monday, August 24, 2026, and Tuesday, August 25, 2026, beginning at 8:30am and ending at 12:45 pm (CT). Reporters have the option of which date to attend as the same information will be presented on both days.

If interested, you can register [here](#).

Please visit the TCR [Education and Training](#) webpage for additional training opportunities.
