#### **BACKGROUND**

The Texas Health Care Information Council (THCIC) was created by Chapter 108 of the Texas Health and Safety Code (THSC). THCIC became part of the Texas Department of State Health Services (DSHS) effective September 1, 2004, and the DSHS Center for Health Statistics is now responsible for the implementation of THSC Chapter 108. Outpatient data collection began with services from hospitals and ambulatory surgery centers (ASC) on October 1, 2009, under 25 Texas Administrative Code (TAC), Sections 421.61 – 421.69. The outpatient data collection was limited to patients that received one or more invasive/incisive surgical or one or more radiological/imaging procedures.

Collection of hospital-based emergency department data began with services starting January 1, 2015, under 25 TAC, Sections 421.71 – 421.79.

Senate Bill (SB) 7 (82nd Texas Legislature First Called Special Session) SECTION 7.06 repealed the facility exemption sections in Chapter 108 effective September 1, 2014. Rules were adopted implementing the rural provider requirements to begin with January 1, 2015, data.

Freestanding Emergency Medical Care Facilities (FEMCF) data collection began with services that occurred on October 1, 2020, under the amended rules in 25 TAC, Sections 421.71 – 421.79.

# **PUBLIC USE DATA FILE (PUDF)**

Sections 108.011(a) and 108.012 of the THSC requires DSHS to provide public use data for computer-to-computer access. It also permits DSHS to charge the data requestor a standard fee for using the Public Use Data File (PUDF). The PUDF contains patient-level information for Texas outpatient data. These data are extracted from DSHS's outpatient services database. The providers/submitters have, by rule, until the next quarter (following the discharge) to submit their data. This means that the PUDF data is a snapshot in time and each quarter may contain some discharges dated in the previous quarter (i.e., for calendar year, data be sure to check the first quarter of the following year also).

# PATIENT/PHYSICIAN CONFIDENTIALITY

The legislative intent behind the creation of the Texas Outpatient (Hospitals, Ambulatory Surgery Centers (ASC), and Freestanding Emergency Medical Care Facilities) Services Data database (TOSD) was that the data and resulting information be used for the benefit of the public. This is specified in Section 108.013 of the Texas Health and Safety Code (THSC). Section 108.013 (c) also stipulates that DSHS may not release, and a person or entity may not gain

access to, any data that could reasonably be expected to reveal the identity of a patient or physician. Any effort to determine the identity of any person violates Section 108.013 and may incur penalties as stated in Sections 108.014 and 108.0141. In addition, under Section 108.013(e) and (f), patient and/or physician information in the TOSD cannot be used for discovery, subpoena, or other means of legal compulsion or in any civil, administrative, or criminal proceeding. Pursuant to the THSC, DSHS excludes all direct personal and demographic identifiers (e.g., name, address, social security number, patient identifiers, service dates) that might lead to the identification of a specific patient from the PUDF.

To protect patient identities, DSHS has suppressed these data elements in this release of the PUDF:

- The last two digits of the patient's ZIP code are suppressed if there are fewer than thirty patients included in the ZIP code.
- The ZIP code is changed to '88888' for patients from states other than Texas and the adjacent states.
- The entire ZIP code and gender code are suppressed if the ICD-10-CM or ICD-10-PCS codes indicates alcohol or drug use or an HIV diagnosis.
- The entire ZIP code and provider name are suppressed if a hospital, an ASC or an FEMCF has fewer than five discharges of a particular gender, including 'unknown'. The provider ID is changed to '999998'.
- The entire ZIP code is suppressed if a hospital, an ASC, or an FEMCF has fewer than fifty discharges in a quarter and the provider ID is changed to '999999'.
- The country code is suppressed if the country field has fewer than five discharges for that quarter.
- The county code is suppressed if a county has fewer than five discharges for that quarter.
- Age is represented by 22 age group codes for the general patient population and 5 age group codes for the HIV and alcohol and drug use patient populations.
- Race is changed to 'Other' and ethnicity is suppressed if a hospital, an ASC, or an FEMCF has fewer than ten discharges of a race.

Substance Abuse and Mental Health Services Administration (SAMHSA) new rules:

On January 18, 2017, Substance Abuse and Mental Health Services Administration (SAMHSA) passed rules for the protection of patients covered under 42 USC §290dd-2 and 42 CFR Part 2 rules (Mental Health and Substance Abuse patients and HIV patients). The federal rules require that patients' names, identifiers (ZIP code, city, address, county, and any geographic identifiers below the state level), sex and dates (date of birth, statement from

dates, statement through dates and procedure dates) be modified and/or masked in the THCIC Public Use Data Files (PUDF) and Research Data Files (RDF).

Texas Department of State Health Services (DSHS) proposed rules regarding the collection and release of the data regarding those patients covered by the federal rules, which were adopted, published in the January 25, 2019, Texas Register on page 44 TexReg 429 and became effective January 30, 2019. Beginning with second quarter 2018, the inpatient, outpatient and emergency department public use datasets and any research datasets approved by the DSHS IRB will be appropriately masked for protection.

It may be possible in rare instances, through complex analysis and with outside information, to ascertain from the PUDF the identity of individual patients. Considerable harm could result if this were done. PUDF users are required to sign and comply with the DSHS Outpatient Discharge Data Use Agreement in the Application before shipment of the PUDF. The Data Use Agreement prohibits attempts to identify individual patients.

#### **RESTRICTIONS ON DATA USE**

Section 108.010(c) of the THSC prohibits DSHS from releasing provider quality reports until one year of data is available. Users of the PUDF are cautioned about using less than a year of data to make any healthcare facility quality assumptions.

Sections 108.013(c)(1) and (2) and 108.013 (g) of the Texas Health and Safety Code (THSC) prohibit the DSHS from releasing, and a person or entity from gaining access to, any data that could reveal the identity of a patient or the identity of a physician unless specifically authorized by the Act. Any effort to determine the identity of any person or to use the information for any purpose other than for analysis and aggregate statistical reporting violates the THSC and the Data Use Agreement. By virtue of the Agreement, the signer agrees that the data will not be used to identify an individual patient or physician. Because of these restrictions, under no circumstances will users of the data contact an individual patient or physician or hospital or ambulatory surgery center, or freestanding emergency medical care facility for the purpose of verifying information supplied in the DSHS Outpatient Services Public Use Data sets. Any questions about the data must be referred to DSHS only. Data analysis assistance is not provided by DSHS. The data are protected by United States copyright laws and international treaty provisions.

In the Data Use Agreement, the purchaser and end-user of the data are referred to as the "licensee". To acquire the data, the licensee must give the

following assurances with respect to the use of DSHS Outpatient Public Use Data sets:

- The licensee will not release nor permit others to release the individual patient records or any part of them to any person who is not a staff member of the organization that has acquired the data, except with the written approval of DSHS;
- The licensee will not attempt to link nor permit others to attempt to link the outpatient records of patients in this data set with personally identifiable records from any other source, including any THCIC research data file (effective Aug 1, 2012);
- The licensee will not release nor permit others to release any information that identifies persons, directly or indirectly;
- The licensee will not attempt to use nor permit others to use the data to learn the identity of any physician;
- The licensee will not nor permit others to copy, sell, rent, license, lease, loan, or otherwise grant access to the data covered by the Data Use Agreement to any other person or entity, unless approved in writing by DSHS;
- The licensee agrees to read the User Manual and to be cognizant of the limitations of the data;
- The licensee will use the following citation in any publication of information from this file:

Texas Outpatient Services Public Use Data File, [quarter and year of data]. Texas Department of State Health Services, Center for Health Statistics, Austin, Texas. [date of publication];

- The licensee will indemnify, defend, and hold the DSHS, its members, employees, and the Department's contract vendors harmless from any and all claims and losses accruing to any person as a result of violation of this agreement; and
- The licensee will make no statement nor permit others to make statements indicating or suggesting that interpretations drawn from these data are those of DSHS.

The licensee understands that these assurances are collected by DSHS to assure compliance with its statutory confidentiality requirement. The signature on behalf of the licensee indicates the licensee's agreement to comply with the above-stated requirements with the knowledge that under Sections 108.014 and 108.0141 of the Texas Health and Safety Code to knowingly or negligently release data in violation of this agreement is punishable by a fine of up to \$10,000 and an offense is a state jail felony. By signing the Data Use Agreement, the PUDF user has been informed that the potential for both civil and criminal penalties exists.

Users of report generating software to access the PUDF are required to purchase a license to use the data.

#### **OUTPATIENT FACILITY COMMENTS**

(Users are advised to consider Hospitals/Ambulatory Surgery Centers (ASCs)/Freestanding Emergency Medical Care Facilities (FEMCFs) comments in any analysis of the data.)

Included with the PUDF is a separate file containing the unedited comments submitted by hospitals or ambulatory surgery centers or FEMCFs at the time of data certification. Comments relating to individual data elements should be considered in any analysis of those data elements. These comments express the opinions of individual hospitals, ASCs, FEMCFs and are not necessarily the views of the DSHS. Hospitals or ambulatory surgery centers and freestanding emergency medical care facilities that submitted comments are identified in 'Reporting Status of Texas Outpatient Facilities'.

A Facility Type file has 31 variables, including the THCIC\_ID and facility name. Variables clarifying the type of provider (Pediatric, Teaching Facility, Long Term Care, etc.) are included also. This is useful for data users focusing on a certain type of facility. Additionally, POA provider indicator and certification status are included.

#### **DATA FILES**

The 2022 PUDF is available in four files, the Base Data, Classification data, Charges and Facility Type Data files. The files are also available in fixed length and tab-delimited formats. The size of the files are as follows:

#### First quarter, 1374\* hospitals:

Classification Data	4,990,320 records	51 variables	Fixed field format	491 MB	Tab-delimited	492 MB
Charges Data	35,798,282 records	13 variables	Fixed field format	2,799 MB	Tab-delimited	1,831 MB
Facility Type Data	1,374 records	34 variables	Fixed field format	129 MB	Tab-delimited	110 KB
Base Data	4,990,320 records	129 variables	Fixed field format	4,217 KB	Tab-delimited	1,931 MB
Grouper Data	35,798,282 records	18 variables	Fixed field format	3,926 MB	Tab-delimited	3,795 MB

<sup>\*</sup> Final number of reporting hospitals, calculated as the result of the original number of reporting hospitals minus the number of hospital(s) with ALL claims submitted wrong due to wrong type of bill.

The data is provided in fixed length and tab-delimited text formats and is best view when imported into a software application. No software is included with the PUDF. The data file has been tested with several software applications, including Microsoft Access (some files may not fit due to record limitations in the application), Statistical Analysis Software (SAS), and Statistical Package for the Social Sciences (SPSS).

Updates to any PUDF data are available through the THCIC website, <a href="http://www.dshs.texas.gov/thcic/">http://www.dshs.texas.gov/thcic/</a>, which should be checked periodically as notifications of an update are posted on it.

#### **DATA DICTIONARY**

This document provides the user with the necessary information to use and understand the data in the Public Use Data File. The following information is provided:

Field	Unique, abbreviated name of the data element and brief explanation of the data element.
	Descriptions of data elements are taken from specifications manuals.
Data Source	Provided by the health care facility on the claim form (Claim)
	Assigned by DSHS (Assigned)
	Provided to THCIC by the healthcare facility (Provider)
	Calculated by DSHS (Calculated)
Type	Alphanumeric or numeric
Coding scheme	Valid codes for a data field. Values taken from specifications manuals.

Any data provided by a facility that has been determined to be invalid has been assigned the value ` (Back quote mark).

Any data element that is blank should be interpreted as 'missing', no data provided, unless otherwise noted.

#### **CITATION**

Any statistical reporting or analysis based on the data shall cite the source as the following:

Texas Outpatient Public Use Data File, [quarter and year of data]. Texas Department of State Health Services, Center for Health Statistics, Austin, Texas. [date of publication].

#### **REVISION**

Field 1: Service\_Quarter: Additional information regarding the breakdown of months into quarters added

Field 30: As of January 1, 2022, THCIC is no longer collecting PAT\_REASON\_FOR\_VISIT in Outpatient Professional claims.
