=====

PROVIDER: BSA Hospital

THCIC ID: 001000

Data is submitted to meet statutory requirements. Conclusions could be erroneous due to communication difficulties in reporting complete data by reporting constraints, subjectivity in assignment of codes, system mapping and normal clerical error. Deadlines may prevent inclusion of all applicable cases. This represents claims data at the time of preset deadlines. Data may be incomplete due to field limitations and be cautiously used to evaluate health care quality and compare outcomes.

PROVIDER: Texas Health Huguley Hospital

THCIC ID: 047000

THCIC audits have been corrected with the FER reported 100% accuracy. There may be duplicates or missing claims. An issue with payer mapping is being researched. Due to the difficulty in rerunning informational claims in Epic without negatively impacting operations, any attempt to rerun claims will cause significantly decreased volume and will not be an accurate accounting of our volume.

This database allows only one primary physician, representing the discharge physician at the institution. In academic medical centers like the University Medical Center of El Paso, patients are cared for by rotating teams, leading to potential inaccuracies in attributing outcomes to one physician. We review the data for improvement through a performance improvement process.

PROVIDER: Cook Childrens Medical Center

THCIC ID: 332000

Cook Children's has certified Q3 2024 encounters to THCIC with these possible data concerns: Charges accrued before admit or after discharge could potentially be missing from the database; THCIC allows for one operating physician assignment per encounter, not per procedure, so a surgeon could potentially be assigned to a procedure they did not perform; THCIC allows for a limited number of diagnoses and procedures. Patients with more than the limit will be missing information from the database.

This database allows only one primary physician, representing the discharge physician at the institution. In academic medical centers like the University Medical Center of El Paso, patients are cared for by rotating teams, leading to potential inaccuracies in attributing outcomes to one physician. We review the data for improvement through a performance improvement process.

This data is submitted in an effort to meet statutory requirements. Conclusions drawn could be erroneous due to communication difficulties in reporting complete data caused by reporting constraints, subjectivity in assignment of codes,

various system mapping and normal clerical error. Data submission deadlines prevent inclusion of all applicable cases therefore this represents administrative claims data at the time of preset deadlines.

PROVIDER: Cook Childrens Medical Center Prosper

THCIC ID: 976100

Cook Children's has certified Q3 2024 encounters to THCIC with these possible data concerns: Charges accrued before admit or after discharge could potentially be missing from the database; THCIC allows for one operating physician assignment per encounter, not per procedure, so a surgeon could potentially be assigned to a procedure they did not perform; THCIC allows for a limited number of diagnoses and procedures. Patients with more than the limit will be missing information from the database.
