Start Certification - System Feature

After the *Cutoff for initial submission the Data Administrator (aka Provider Primary Contact) and Certifier will now receive an email a few days after the “Cutoff for Initial Submission”. This email will only be sent to facilities that are 100% accurate at the cutoff for initial submission. The email will be sent approximately sixty days after the end of each quarter. The email will have four reports attached to it:

- ✕ Summary Report – use this report to validate if the data for the period is correct, such as record counts, min/max/average charges, admission type and source, payer type, patient age, gender, race, and ethnicity
- ✕ Claim Count for First Physician Report - Use this to determine if the physicians (attending, operating, other) who utilize your facility are represented correctly. This report will give a claim count by physician name, sorted by name. It will also include the physician ID but will not include patient information.
- ✕ Claim Count for Second Physician Report - Use this to determine if the second physicians (attending, operating, other) who utilize your facility are represented correctly. This report will give a claim count by physician name, sorted by name. It will also include the physician ID, but will not include patient information
- ✕ Error Type List Report - use this to determine if you have made all possible corrections to your data, if needed.

This email will only be sent to facilities that have a 100% accuracy rate on the date of initial submission. This email will suggest that if the Certifier determines that the data is complete and accurate after reviewing the reports, then they should consider choosing the Encounter or Event on Demand (EOD) option on their certification tab for that quarter. If you do not choose to start the EOD option, the certification process will start after the cutoff for corrections as it does now.

***Cutoff for initial submission is the date when the submission data is due in the system.**

Encounter on Demand (EOD)

Generate Quarter Cert. Data (EOD) ➡ is the ability for facilities to generate quarterly certification data after the quarter has ended.

Facilities will be able to generate their quarterly certification data and the corresponding certification data reports from the time a quarter ends (example: 2q15 ends June 30, 2015.) A facility can generate the certification files for this time through the end of the corrections period for that quarter.

PLEASE BE ADVISED when a facility has chosen to begin this process, the facility must ensure the data has been submitted, is complete and accurate. If changes need to be made to this data after the file has been generated, these changes will incur a charge from System I3 to regenerate the data. Also, **ANYONE** with access to a UserID as a certifier can initiate the EOD and not just the system administrator for the facility.

- * Some claims still have errors. Please use Claim Correction to correct these claims. You may also review these errors with the Frequency of Errors Report and the Hardcopy Report, both of which are available on the Reports Tab.
- * You may wish to use the Claim Merge function to reduce your claims and obtain a better claim summary.
- * You should use the Summary Report on the Reports tab to obtain a snapshot of your data. This report shows data distribution by month, charges, admission type, newborns, discharge status, payer (claim filing indicator), patient geographic origin, gender, age, race, ethnicity, length of stay and diagnosis and procedure counts per claim.

Based on the above analysis, please verify that there are NO unaddressed data issues prior to continuing with the cert file generation.

Provider Review of Data

- ✕ Hospitals should provide their health practitioners an opportunity to review, request correction of, and comment on records of patients for whom they are shown as attending or operating.
- ✕ This is probably the most difficult part of certification!
- ✕ The process that facility follows is dependent upon the organizational and logistical structure of the facility.
- ✕ Factors that affect the process or amount of time involved include:
 - ✕ Number of practitioners
 - ✕ Teaching facility
 - ✕ Location of practitioners
 - ✕ Interest of practitioners
- ✕ Each hospital is responsible for developing the process and methods for collecting comments and corrections from practitioners, and for ensuring that their concerns are acted upon.
- ✕ Use of the physician reports is not required.

The screenshot displays the SYSTEM13 web application interface. The top navigation bar includes links for Home, Claims, Claim Correction, Reports, Data Mgmt, Certification (highlighted), Batches, and Help. The SYSTEM13 logo is on the right. Below the navigation bar, the page is titled 'THCIC Support Center' and 'THCIC'. A secondary navigation bar contains links for User Management, My Account, and Logout.

The main content area is divided into two columns. The left column is titled 'Reports' and lists various reports under the heading '2020 1st Quarter Inpatient'. A blue arrow points to the link 'C02: Top 30 HCFA Diagnosis Related Groups'. The right column is titled 'Certification' and shows '2020 1st Quarter Inpatient 135 Encounters'. It includes a 'Certifier Name' field with the name 'Tiffany Overton' and an 'UPDATE CERTIFIER NAME' button. Below this, there is a section for 'Comments' with a large text area and a 'REQUEST CERT. Incomplete Encounters and Deleted Claims Report
System13 QA 2

Date: 12/14/09

The claims listed below were not included in an encounter because one or more claims necessary to complete the encounter was not present or the claims were marked for deletion by submission of a void claim (xx8). The reason for claims not being included in the encounter are that there is no discharge claim.

A message code is listed beside each claim indicating the reason that the encounter was not completed. Actions to be taken regarding these messages: If the patient was not discharged during the quarter, then nothing needs to be done. If the patient was discharged during the quarter, please ensure that the missing information is supplied. Contact the THCIC Help Desk if assistance is required in making the correction.

Void/cancel claims (xx8) will be listed after the claim that has been deleted. There will be no error code associated with these claims. These claims are listed for informational purposes only.

Certification File Download

Certification File Download is the capability for facilities to request the creation of a downloadable file containing the quarterly certification data for a given quarter as long as the quarter's certification data is accessible for viewing via the system's certification page.

The file will be in a fixed length format, and the data layout will be downloaded with the file. This will allow a facility to analyze the data with software analysis tools of the facilities choice.

BE AWARE that once this file has been requested, it should be available within 24 hours. An e-mail will be sent to the Provider Primary Contact/ Data administrator on file when this data is available for download. Please be advised, **ANYONE** with access to the provider login/ password can initiate the certification file download and not just the Provider Primary Contact/ Data administrator for the facility.

The file will be available for downloading for 30 days. The download file will be removed from the system after 30 days from the date of the download file creation.

There will be a fee if a facility requests this file again after the 30-day review period. If a facility would like another creation of this file, there will be a fee accessed through System I 3. It is important that the file is downloaded within 30 days of requesting its creation to avoid any fees.

Certification Information

What does it mean to “certify” the data?

- ⌘ It indicates that your facility confirms that:
 - policies and procedures are in place within the facility's processes to validate and assure the accuracy of the data and any corrections submitted; and
 - all errors and omissions known to the facility have been corrected or the facility has provided comments describing the errors and the reasons why they could not be corrected; and
 - to the best of their knowledge and belief, the data submitted accurately represents the facility's administrative status of data for the reporting quarter; and
 - the facility has provided physicians and other health professionals that were reported in the data a reasonable opportunity to review and comment on the data.

If a facility does not certify the data, will it be penalized?

- ⌘ No; however, when the data are released, documentation created by THCIC will indicate your facility “Failed to Certify”. It would be public interpretation as to what “Failed to Certify” means.

What if facility selects the “Elects Not to Certify” method?

- ⌘ Detailed written justification must be provided in the “comment” area explaining the decision to not certify the data. The written justification will be released to the public.

NOTE: Any certification comment or written justification must NOT reveal the identity of a patient or physician. All certification comments and written justifications will be released to the public.

What happens if a facility misses a certification due date?

- ⌘ There are no extensions to the certification due date.
