To protect your data, THCIC requires passwords to be reset every 60 days.

Provider Home Page – 1st Row

The screenshot displays the SYSTEM13 Provider Home Page. The top navigation bar includes links for Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. The SYSTEM13 logo is on the right, along with links for User Management, My Account, and Logout. The main section is titled 'Activity Dashboard' and features three buttons: WEB CLAIM ENTRY, CORRECT ERRORS, and START CERTIFICATION. Below these are three quarters (Q1, Q2, Q3) for 2025. Q1 and Q3 show 'No claims are present for this quarter.' Q2 shows a table of inpatient claims by month and a total of 20 with 25% accuracy. Submission and correction due dates are listed for each quarter.

Q1 2025

Q3 2025

SUBMISSION

No claims are present for this quarter.

Submission due 1 Dec 2025
Correction due 2 Feb 2026

The first list will show claims that you have in the system by quarter. If you have claim information, it will show accordingly. At the bottom of each quarter, you will see the submission due date and the correction due date.

If you will have errors; this will be shown on this listing.

Provider Home Page – 2nd Row

The screenshot displays the SYSTEM13 Provider Home Page. At the top, there is a navigation bar with buttons for Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. To the right of the navigation bar is the SYSTEM13 logo and a bar containing links for User Management, My Account, and Logout. Below the navigation bar is the Activity Dashboard, which includes buttons for WEB CLAIM ENTRY, CORRECT ERRORS, and START CERTIFICATION. The dashboard is divided into three sections for Q1 2025, Q2 2025, and Q3 2025. Each section contains a CERTIFICATION status and a certification due date. To the right of each section is a callout box providing additional information.

Quarter	Certification Status	Certification Due Date	Callout
Q1 2025	Please contact System13 if you still need to submit or correct claims for this quarter.	15 Oct 2025	If the quarter data has been completed and no data is submitted, you will have to contact System13 to make a submission.
Q2 2025	If you have finished submitting and correcting claims, you may build your certification data set using the start certification button at the top of the screen.	15 Jan 2026	You will be given the quarter's certification due date.
Q3 2025	No claims are present for this quarter.	15 Apr 2026	If the data is available for certification, it will show that you have data to certify.

Provider Home Page – 3rd Row

The screenshot displays the SYSTEM13 Provider Home Page. The top navigation bar includes links for Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. The user is logged in as THCIC, with links for User Management, My Account, and Logout. The Activity Dashboard section features three buttons: WEB CLAIM ENTRY, CORRECT ERRORS, and START CERTIFICATION. The dashboard is organized by quarter, with Q1 2025, Q2 2025, and Q3 2025 visible. A prominent callout box highlights the next deadline submission for Q2 2025, which is due in 22 days. A Performance History bar chart shows data for Q4 2024, Q1 2025, Q2 2025, and Q3 2025, with a legend for Inpatient - Good, Inpatient - Bad, Outpatient - Good, and Outpatient - Bad. A Quick Tip box at the bottom right states: 'To protect your data, THCIC requires passwords to be reset every 60 days.'

Start Certification/ Certification is the data certification process. It will allow facilities to view their previously submitted data and certify that the data was accurately submitted. If the user has inpatient and outpatient claims, their certification page will show both inpatient and outpatient data. If the facility only submits outpatient data, it will only show outpatient data.

Banner Messages and Locked Accounts

The screenshot displays the SYSTEM13 application interface. At the top, two red banner messages are visible, each with a close button (X) on the right. The first banner states: "Your password will be expiring on 01/21/2022. Please consider changing it now." The second banner states: "Locked Out Accounts Detected: Please unlock active users and delete unneeded accounts in User Management." Below the banners is a navigation bar with tabs: Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. To the right of the tabs is the SYSTEM13 logo. Below the navigation bar is a green bar containing the text "THCIC" and links for "User Management", "My Account", and "Logout". The main content area shows a message: "Your password will expire on: 10/11/2025 (approximately 2 months from today)" with a link to "Configure MFA Settings". Below this is a "CURRENT PASSWORD" label and a text input field containing "current password". To the right of the input field is a box titled "PASSWORDS MUST:" with a bullet point: "expire and be changed every 60 days". A red arrow points from the first banner message to the "User Management" link in the green bar.

Your password will be expiring on 01/21/2022. Please consider changing it now. X

User Management [CREATE NEW USER](#)

User ID	Name	Phone	Email	Role	Locked	Disabled
---------	------	-------	-------	------	--------	----------

User management allows providers/facilities to have multiple login user IDs for access to the System, if it is desired.

The assigned Provider Primary Contact/Data Manager will be authorized to access the “User Management” option, which is on the System dashboard screen. Only the person listed as the Provider Primary Contact/ Data Manager will be able to access the User Management screen, which allows them to add or delete user(s) from the system. Each facility can allow for the addition of up to six (6) individual users for the facility. The individual users are assigned specific accesses to the System by the Provider Primary Contact/Data Manager under the User Management link. There will be two types of user “roles”: Data Manager and Data Certifier.

A complete overview of this process is available in the Volume 15 Number 3 numbered letter available at <http://www.dshs.state.tx.us/thcic/hospitals/numberedletters/2012/Vol15No3.pdf>

User Management – To Add User

The screenshot shows the SYSTEM13 User Management interface. At the top, there is a navigation bar with links: Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. Below this, the user is logged in as 'THCIC Trainer 000005' and is in the 'User Management' section. A callout box points to the 'CREATE NEW USER' button, stating: 'To add a user click 'create new user.''. Below the navigation bar, there is a table header with columns: User ID, Name, Phone, Email, Role, Locked, and Disabled. The main content area shows the 'New User' form with fields for First Name, Middle Name, Last Name, Phone Number, and Email. There are also radio buttons for Role (DATA MANAGER, DATA CERTIFIER) and Email Scheme (DATA MANAGER, DATA CERTIFIER, FACILITY DATA ADMINISTRATOR). A 'More Info' link is provided for both Role and Email Scheme. At the bottom of the form are 'SAVE' and 'CANCEL' buttons. A callout box on the right states: 'The screen below will open...'. Another callout box on the right provides instructions: 'To add user, you must fill out the information accordingly and choose the type of user ID and/or email scheme for this user. The Data Manager is the only one who can add a user to the system. Click save. An email will go to the primary and the person to add to the system, so they receive their login ID and a link to set their password.'

User Management – User Roles / Email Schemes

ROLE

☐ DATA MANAGER ☐ DATA CERTIFIER

[? More Role Info](#)

Roles

The role determines the functionality available to a user.

Data User

- Add new claims (WebClaim)
- Correct claims (WebCorrect)
- Generate pre-certification reports (Reports)
- View submitted batches (Batches)

Data Certifier

- Can perform all functions available to a Data User
- Generate certification data via Encounter on Demand (EOD)
- Download certification files
- Download certification reports
- Certify quarterly data (Certification)
- Request regens (must contact System13 help desk)

OK

EMAIL SCHEME

☐ DATA MANAGER ☐ DATA CERTIFIER ☐ FACILITY DATA ADMINISTRATOR

[? More Email Scheme Info](#)

Email Schemes

The email scheme determines which type of email notifications a user will receive.

Data User

- FER (Frequency of Errors Report)
- Count of Excluded/Rejected Claims

Data Certifier

- All notifications received by the Data User
- Certification Download File Availability
- Certified
- Rejected - Elected Not to Certify
- EOD (Encounter on Demand) Generated

Data Manager

- All notifications received by the Data Certifier and Data User
- MRR (Merge, Replace, Remove)
- DR (Duplicate Removal)

OK

Choose what type of role the user will have in the system, and which emails they will receive.

Other features - My Account Password

The screenshot shows the 'My Account' page in the SYSTEM13 application. The user is Joe Jamason (th999999z) and their password expires on 01/13/2025. The page has a navigation bar with links: Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. The 'My Account' link is highlighted in green, and an orange arrow points to it. The 'Logout' link is also visible. The main content area has a blue box with the text: 'The user must use the Multi-Factor Authentication (MFA) settings to set their password. The following pages will discuss the new process.' A blue arrow points from this text to the 'Configure MFA Settings' link. Below this, there are three password fields: 'CURRENT PASSWORD', 'CHANGE PASSWORD', and 'PASSWORD CONFIRMATION'. Each field has a red error message: 'Current password cannot be blank.', 'New password cannot be blank.', and an empty field for confirmation. At the bottom, there are 'UPDATE' and 'CANCEL' buttons. To the right, there is a light blue box with password requirements: 'PASSWORDS MUST:' (expire every 60 days, at least 8 characters, 1 alpha, 1 numeric, 1 special character, uppercase and lowercase letters, begin and end with a letter), 'PASSWORDS MUST NOT:' (be reused for 1 year, contain username, contain letter or number sequences greater than 2, repeat characters more than twice in a row), and 'PASSWORD NOTES:' (Special Characters: ! @ # \$ % ^ & * ? _ ~ -; examples of letter or number sequences greater than 2: 'abc', '123', '4567', 'ghijk'; examples of letter, number, or sequence repetition: 'aaa' (2-letter repetition), '111' (2-number repetition), 'abcabc' (letter sequence repetition), '123123' (number sequence repetition)).

PASSWORDS MUST:

- expire and be changed every 60 days
- be at least 8 characters long
- contain at least 1 alpha, 1 numeric, and 1 special character
- contain uppercase and lowercase letters
- begin and end with a letter

PASSWORDS MUST NOT:

- be reused for 1 year
- contain username
- contain letter or number sequences greater than 2
- repeat characters more than twice in a row

PASSWORD NOTES:

1. Within this application, the following is defined as the set of Special Characters: ! @ # \$ % ^ & * ? _ ~ -
2. Here are some examples of a letter or number sequence greater than 2: 'abc', '123', '4567', 'ghijk'
3. Here are some examples of a letter, number, or sequence that is repeated more than twice: 'aaa' (2-letter repetition), '111' (2-number repetition), 'abcabc' (letter sequence repetition), '123123' (number sequence repetition)

Multi-Factor Authentication (MFA) Configuration

Multi-Factor Authentication Configuration

Joe Jamason (*th999999z*)

Select how you will obtain your 6-digit code:

☒ Email (default)

☐ Authenticator Application (recommended)

SAVE

CANCEL

The configuration page will be presented to all users upon the first time they login.

Email: Will send your code via Email, this is the easier option and does not require additional update.

Authenticator App: Requires an App where your 6-digit code will cycle every 30 seconds. This will help if your facilities email filter takes too long for email.

Details and Instructions for both settings are available to read under the “Instructions”.

INSTRUCTIONS

You need to select by which means you will receive your 6-digit code when confirming your identity.

Email:

This is the default option, and easiest to manage. By selecting this method the application will send you a 6-digit code to the email address associated to your account: *schambers@system13.com*

With this option selected, click 'Save', and then check your Inbox. You should receive an email with your 6-digit code. This will be done every time you log into the application. On the next page, you will have an opportunity to enter the 6-digit code. For security purposes, the code in the email is only valid for 5 minutes. You will have the option to select 'Resend Code' to request a new code, if needed.

Authenticator Application:

This is the recommended option, but involves the use of another application, typically installed on your smartphone, to provide the 6-digit codes you will need when confirming your identity.

With this option selected, scan the QR Code on the next page in your Authenticator Application of choice. Once the new account is added in that application you will see a 6-digit code, and a count down; these codes are only valid for 30-seconds at a time.

Now, click 'Save' and enter the 6-digit code presented in the Authenticator application on the resulting page.

MFA Configuration – Email

Email: Is the default and is easier to manage. You will be sent a 6 -digit code to the email address associated to the user's account. Once the code is sent it will be valid for 5 minutes. You will have the option to resend a new code.

Multi-Factor Authentication Configuration

Joe Jamason (th999999z)

Select how you will obtain your 6-digit code:

- ☒ Email (default)
☐ Authenticator Application (recommended)

SAVE

CANCEL

Upon logging in you will receive an email from System I 3 Production Notifier. The email will have your username as well as your one-time code. You will also be able to see the facility and it's ID number on the email.

You can either copy and paste the code from the email or type the code. Once the code is there you will need to “click” the verify button.

Once verified you will be presented with the homepage.

INSTRUCTIONS

You need to select by which means you will receive your 6-digit code when confirming your identity.

Email:

This is the default option, and easiest to manage. By selecting this method the application will send you a 6-digit code to the email address associated to your account: schambers@system13.com

With this option selected, click 'Save', and then check your Inbox. You should receive an email with your 6-digit code. This will be done every time you log into the application. On the next page, you will have an opportunity to enter the 6-digit code. For security purposes, the code in the email is only valid for 5 minutes. You will have the option to select 'Resend Code' to request a new code, if needed.

Authenticator Application:

This is the recommended option, but involves the use of another application, typically installed on your smartphone, to provide the 6-digit codes you will need when confirming your identity.

With this option selected, scan the QR Code on the next page in your Authenticator Application of choice. Once the new account is added in that application you will see a 6-digit code, and a count down; these codes are only valid for 30-seconds at a time.

Now, click 'Save' and enter the 6-digit code presented in the Authenticator application on the resulting page.

Log In the System (Email)

Upon logging in you will receive an email from System13 Production Notifier.

The email will have your username as well as your one-time code. You will also be able to see the facility and its ID number on the email.

You can either copy and paste the code from the email or type the code. Once the code is there you will need to “click” the verify button.

Once verified you will be presented with the homepage.

The screenshot displays the 'Confirm Your Identity' web interface and an email from 'System13 Acceptance Notifier'. The web page shows the user 'Joe Jamason (th999999z)' and a 6-digit code '839620' entered in a text field. Below the code field are 'VERIFY' and 'RESEND CODE' buttons. The footer of the web page includes release information 'Release 12.2.0-alpha.mfa', copyright 'Copyright 2008 - 2024 © www.system13.com', and contact details '1648 State Farm Boulevard • Charlottesville, VA 22911 • (888) 308-4953 • (434) 977-0000'. The email below shows the subject 'THCIC HCDCS Account Sign In: Confirm Your Identity' and the body text: 'Dear Joe Jamason: To complete the login process for your th999999z account, enter this one-time code to confirm your identity: 839620. Please use caution and do not forward or share this information with any unknown third party. To help protect your privacy, this code will expire within 5 minutes. Neither THCIC nor System13 will call you and ask you for this code, nor will we ask you for a password. Please report any suspicious activity. Thank you. -- THCIC/System13 Support'. The email also lists organization information: 'Facility Name: Big 'Ole Hospital' and 'Facility Identifier: 999999'. At the bottom of the email are 'Reply' and 'Forward' buttons.

Joe Jamason (th999999z)

Select how you will obtain your 6-digit code:

- ☐ Email (default)
- ☒ Authenticator Application (recommended)

SAVE

CANCEL

INSTRUCTIONS

You need to select by which means you will receive your 6-digit code when confirming your identity.

Email:

This is the default option, and easiest to manage. By selecting this method the application will send you a 6-digit code to the email address associated to your account: `schambers@system13.com`

With this option selected, click 'Save', and then check your Inbox. You should receive an email with your 6-digit code. This will be done every time you log into the application. On the next page, you will have an opportunity to enter the 6-digit code. For security purposes, the code in the email is only valid for 5 minutes. You will have the option to select 'Resend Code' to request a new code, if needed.

Authenticator Application:

This is the recommended option, but involves the use of another application, typically installed on your smartphone, to provide the 6-digit codes you will need when confirming your identity.

With this option selected, scan the QR Code on the next page in your Authenticator Application of choice. Once the new account is added in that application you will see a 6-digit code, and a count down; these codes are only valid for 30-seconds at a time.

Now, click 'Save' and enter the 6-digit code presented in the Authenticator application on the resulting page.

Log In the System (Auth APP)

When challenged for your 6-digit code, you will need to look for the code in your authenticator app. (Remember this code changes every 30-seconds.)

For users with multiple accounts your username will be over/under the code that you are looking for.

Troubleshooting the MFA Process

If the email code is not being received, double check that the email that was entered is correct.

Please only use one Authentication APP.

Make sure that you only have that specific login on your app once.

Double check the username on the app/email and the username for the site.

More information about this process can be in the THCIC numbered letter, Volume 27, number 5 available at

<https://www.dshs.texas.gov/sites/default/files/thcic/hospitals/numberedletters/2024/Vol27No5.pdf>

Issues with the MFA process, please contact System I 3 at 888-308-4953 or email thcichelp@systemi3.com.

Accepted As Is

No Correction Needed

Errors

The **Claims** tab allows a facility to view a listing of all claims submitted, that are currently in the system. Under the **Errors** heading (-) are claims that are submitted and need no correction. If a claim has a number and a **GREEN A** these claims have been accepted as is. The claims with a **RED** number, indicates a claim with the errors, the number is how many errors are on this claim.

Reports

Reports

The screenshot shows the SYSTEM13 web application interface. At the top, there is a navigation bar with buttons for Home, Claims, Claim Correction, Reports (highlighted), Data Mgmt, Certification, Batches, and Help. To the right of the navigation bar is the SYSTEM13 logo. Below the navigation bar, the page title is 'THCIC Support Center'. On the right side of the page, there are links for 'THCIC', 'User Management', 'My Account', and 'Logout'. The main content area is titled 'Reports'. Under this title, there is a section labeled 'SELECT REPORT:' followed by a dropdown menu. The dropdown menu is open, showing a list of report options: 'Frequency of Errors', 'Hardcopy Report', 'Summary Report', 'Data Analysis Report', 'Claim Count for First Physician', 'Claim Count for Second Physician', and 'Error Type List'. Below the dropdown menu, there is a 'GENERATE' button.

Reports allows the user to get various reports on data that is currently in the system. The data currently in the systems includes data that has been submitted and not removed due to the cutoff for corrections.

Reports

SELECT REPORT:

- Frequency of Errors
- Hardcopy Report
- Summary Report
- Data Analysis Report
- Claim Count for First Physician
- Claim Count for Second Physician
- Error Type List

Frequency of Errors - Allows the user to verify the number of claims System13 received and verify that the dates are the same as the user submitted for the quarter. Frequency of Error Report provides the user information on the number of claims processed, number of claims in error, number of fields in error, error summary and accuracy rate.

Hardcopy Report - shows every error and warning on each claim.

Summary Report - use this report to validate if the data for the period is correct, such as record counts, min/max/average charges, admission type and source, payer type, patient age, gender, race, and ethnicity.

Data Analysis Report - shows counts per month, types of bills, and other data items, and makes suggestions for continuing, such as removing duplicates, correcting invalid data, etc.

Claim Count for First Physician - Use this to determine if the physicians (attending, operating, other) who utilize your facility are represented correctly. This report will give a claim count by physician name, sorted by name. It will also include the physician ID but will not include patient information.

Claim Count for Second Physician - Use this to determine if the second physicians (attending, operating, other) who utilize your facility are represented correctly. This report will give a claim count by second physician name, sorted by name. It will also include the physician ID but will not include patient information.

Error Type List - use this to determine if you have made all possible corrections to your data, if needed.

Reports Functionality

- ✓ The  button will remain disabled until the user selects the report type, filter by and type of patients. Then  will become an option.

The screenshot shows the 'THCIC Support Center' interface. At the top is a navigation bar with buttons for Home, Claims, Claim Correction, Reports (highlighted), Data Mgmt, Certification, Batches, and Help. To the right of the navigation bar is the 'SYSTEM13' logo. Below the navigation bar, the page title 'THCIC Support Center' is displayed. On the right side of the page, there are links for 'User Management', 'My Account', and 'Logout'. The main content area is titled 'Reports'. It contains three sections: 'SELECT REPORT:', 'FILTER BY:', and 'PATIENTS:'. The 'SELECT REPORT:' section has a dropdown menu with the following options: 'Frequency of Errors' (selected), 'Hardcopy Report', 'Summary Report', 'Data Analysis Report', 'Claim Count for First Physician', 'Claim Count for Second Physician', and 'Error Type List'. The 'FILTER BY:' section has a dropdown menu with the following options: 'Timeframe' (selected), 'Processed Date', and 'Batch Number'. The 'PATIENTS:' section has three radio button options: 'Inpatient', 'Outpatient - Institutional', and 'Outpatient - Professional'. At the bottom of the form is a 'GENERATE' button.

- ✓ If no data matches your request, a message will be indicated on the top left corner.

*	ONE OR MORE OF YOUR MONTHS IS MISSING DATA
*	Some claims still have errors. Please use Claim Correction to correct these claims. You may also review these errors with the Frequency of Errors Report and the Hardcopy Report, both of which are available on the Reports Tab.
*	You should use the Summary Report on the Reports tab to obtain a snapshot of your data. This report shows data distribution by month, charges, admission type, newborns, discharge status, payer (claim filing indicator), patient geographic origin, gender, age, race, ethnicity, length of stay and diagnosis and procedure counts per claim.

Provider Tab Data Management

Data Mgmt

Modify/Replace/Remove Report

- ✕ Remove duplicate claims
- ✕ Replace certain bill types

Removal and replace functions are part of the normal encounter and event building processes that create the certification data. Providers may now run these processes ahead of time to have a better view of their actual data.

The **Modify/Replace/Remove process (MRR)** will match claims with the same key values; patient control number, medical record number, admission start of care and admission hour.

The MRR process will:

- Eliminate duplicate claims in the correct order of processing
- Apply late charges (xx5 bill types)
- Apply corrections to claims (xx6 bill types - outpatient professional only)
- Apply the replacement information (xx7 bill types)
- Remove claims that match a Void/Cancel of a prior claim (xx8 bill types)

When a provider chooses one of these two functions, they are advised that they may wish to run the Data Analysis Report ahead of time, which makes suggestions concerning the MRR and DR functions. It is also recommended that when choosing to run the MRR and DR processes, other facility users should not be in the system to avoid undesired results if records are locked by users and those same records need to be removed by the MRR or DR process.

After the provider completes all the prompts, the MRR or DR process is submitted to run in the background. When the process is completed, the Data Manager is sent an email describing the number of records that were analyzed and any that fit each category of removal.

Provider Tab Data Management – Modify/ Replace/ Remove Process (MRR)

The screenshot displays the SYSTEM13 web application interface. At the top, a navigation bar includes links for Home, Claims, Claim Correction, Reports, Data Mgmt (highlighted in green), Certification, Batches, and Help. The SYSTEM13 logo is in the top right corner. Below the navigation bar, the page title is 'THCIC Support Center'. A secondary navigation bar contains 'THCIC', 'User Management', 'My Account', and 'Logout'. The main content area is titled 'Data Management Actions on Quarterly Data'. It features two side-by-side panels. The left panel, 'Modify/Replace/Remove Process (MRR)', describes the MRR function and lists its actions: matching claims by Patient Control Number, Medical Record Number, Admission Start of Care, and Admission Hour; eliminating duplicate claims; applying late charges (xx5 bill types); applying corrections (xx6 bill types); applying replacement information (xx7 bill types); and removing claims matching a Void/Cancel of a prior claim (xx8 bill types). Below this panel is a 'Select Claim Type' section with radio buttons for INPATIENT and OUTPATIENT (selected). The right panel, 'Duplicate Remove Process (DR)', describes the DR function and lists its actions: matching claims by Patient Control Number, Medical Record Number, Admission Start of Care, Admission Hour, and Bill Type; and retaining the most recently submitted claim. Below this panel is a 'Select Action' section with two buttons: 'MODIFY/REPLACE/REMOVE (MRR)' (highlighted with a mouse cursor) and 'REMOVE DUPLICATES (DR)'.

Duplicate Removal

- ✧ Remove duplicate claims
- ✧ Replace certain bill types

Removal and replace functions are part of the normal encounter and event building processes that create the certification data. Providers may now run these processes ahead of time to have a better view of their actual data.

The **Duplicate Removal process (DR)** must match with the same key values patient control number, medical record number, admission start of care, admission hour, bill type. It will retain the most recently submitted claim.

When a provider chooses one of these two functions, they are advised that they may wish to run the Data Analysis Report ahead of time, which makes suggestions concerning the MRR and DR functions. It is also recommended that when choosing to run the MRR and DR processes, other facility users should not be in the system to avoid undesired results if records are locked by users and those same records need to be removed by the MRR or DR process.

After the provider completes all of the prompts, the MRR or DR process is submitted to run in the background. When the process is completed, the Data Manager is sent an email describing the number of records that were analyzed and any that fit each category of removal.

If you have multiple bill types other than xx1 or xx0, you should use the MRR function. For example, if you have other types such as xx8s, then removing duplicate xx1s and later applying the xx8s during encounter processing will possibly leave no claims. If you have only xx1s or xx0s and need to remove duplicate xx1s and xx0s, then the DR function should be the choice. The Data Analysis Report can help you decide.

Running the MRR or DR function is not a requirement and is only a recommendation. If a provider chooses not to run the MRR or DR function prior to the scheduled "Cutoff for corrections at time of certification", System13 will run these functions as part of the normal encounter and event building process that create the certification data.

This report will open as a PDF as shown below.

Data Management Actions on Quarterly Data

Modify/Replace/Remove Process (MRR)

The MRR function will:

- Match claims with the same key values:
 - Patient Control Number
 - Medical Record Number
 - Admission Start of Care
 - Admission Hour
- Eliminate duplicate claims in the correct order of processing
- Apply late charges (xx5 bill types)
- Apply corrections to claims (xx6 bill types - outpatient professional only)
- Apply the replacement information (xx7 bill types)
- Remove claims that match a Void/Cancel of a prior claim (xx8 bill types)

Duplicate Remove Process (DR)

The DR function will:

- Match claims with the same key values:
 - Patient Control Number
 - Medical Record Number
 - Admission Start of Care
 - Admission Hour
 - Bill Type
- Retain the most recently submitted claim

Claim Correction

AGENDA

- ✓ Data Correction Schedule
- ✓ System Feature
- ✓ Claim Correction
- ✓ Navigating In Claim Correction
- ✓ Making corrections to your data by using Claim Correction
- ✓ Data Correction – Methods
 - ✓ Hospitals will use one of the following methods for correcting files or claims:
 - ✓ Hospital submits a corrected replacement claim (XX7) file or void/cancel (XX8) claim file and a corrected original bill type claim file to System 13 through the hospital's own information system (But an original XXI must be originally submitted.)
 - ✓ Vendor's Correction Mechanism

Claim Correction Due Dates

Data Reporting Schedule

Texas Health Care Information Collection Center for Health Statistics

Activity	Q2 2024	Q3 2024	Q4 2024	Q1 2025	Q2 2025	Q3 2025	Q4 2025	Q1 2026
Cutoff for initial submission	9-3-24	12-2-24	3-3-25	6-2-25	9-2-25	12-1-25	3-2-26	6-1-26
Cutoff for corrections	11-1-24	2-3-25	5-1-25	8-1-2025	11-3-25	2-2-26	5-1-26	8-3-26
Facilities retrieve certification files	12-2-24	3-3-25	6-2-25	9-2-2025	12-1-25	3-2-26	6-1-26	9-1-26
Certification/ comments due	1-15-25	4-15-25	7-15-25	10-15-25	1-15-26	4-15-26	7-15-26	10-15-26

The reporting schedule is a rule driven schedule, under [Chapter 421](#), Title 25, Part 1 of the Texas Administrative Code, Subchapter D, [RULE §421.66](#). The due dates are either the 1st or the 15th of the month, if these dates are on a weekend or state observed holiday, the data is due the next business day.

System Feature

After the *Cutoff for initial submission the Data Manager (aka Provider Primary Contact) and Certifier will now receive an email a few days after the “Cutoff for Initial Submission. This email will be sent approximately sixty days after the end of each quarter. The email will have four reports attached to it:

- ✕ Summary Report – use this report to validate if the data for the period is correct, such as record counts, min/max/average charges, admission type and source, payer type, patient age, gender, race, and ethnicity
- ✕ Claim Count for First Physician Report - Use this to determine if the physicians (attending, operating, other) who utilize your facility are represented correctly. This report will give a claim count by physician name, sorted by name. It will also include the physician ID but will not include patient information.
- ✕ Claim Count for Second Physician Report - Use this to determine if the second physicians (attending, operating, other) who utilize your facility are represented correctly. This report will give a claim count by physician name, sorted by name. It will also include the physician ID, but will not include patient information
- ✕ Error Type List Report - use this to determine if you have made all possible corrections to your data, if needed.

The email will suggest that if the Certifier determines that the data is complete and accurate after reviewing the reports, then they should consider choosing the Encounter or Event on Demand (EOD) option on their certification tab for that quarter. If you do not choose to start the EOD option, the certification process will start after the cutoff for corrections as it does now.

***Cutoff for initial submission is the date when the submission data is due in the system.**

Go To Correct Errors/ Claim Correction

The user can go to claim corrections through the provider tab or the dashboard icon

Opening Claim Correction

The screenshot displays the SYSTEM13 web application interface for claim corrections. The top navigation bar includes links for Home, Claims, Claim Correction (highlighted), Reports, Data Mgmt, Certification, Batches, and Help. The SYSTEM13 logo is in the top right corner. Below the navigation bar, the page title is "THCIC Support Center". A search bar is present with the placeholder text "Enter Control #, Medical Record #, Patient or Claim #", and buttons for "SEARCH" and "ADVANCED SEARCH". A "START CORRECTIONS" button is located on the right. The main content area features a table with the following columns: Patient Control #, Medical Record #, Claim #, Started On, Patient Name, In/Out, and Errors. The table lists 13 claims, each with a checkbox in the first column and a red number in the Errors column. At the bottom of the table, there is a "SELECT ALL" button, a status indicator "96 Claims", and buttons for "DELETE" and "ACCEPT AS IS".

DELETE

Only the primary contact can delete a claim. When the primary contact has a claim 'checked', it can be deleted. If the claim is deleted, there is no way Ssystem I3 can get this claim back. Data will have to be reentered into the system.

Accept As Is

ACCEPT AS IS

To mark a claim(s) that has errors, “Accept As Is”, the "Accept As Is" button has been added to the claim error screen under claim corrections. You must first review the errors. Once the errors have been reviewed and the facility cannot make the corrections to pull the claim from the correction listing “Accept As Is” is an option.

The screenshot displays the SYSTEM13 THCIC Support Center interface. The top navigation bar includes links for Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. The user is logged in as 'User Management' with options for 'My Account' and 'Logout'. The main header shows 'THCIC Support Center' and a 'Back to list of claims' link. The patient information section displays 'DOE, JOHN', 'Medical Record Number: 441', 'Patient Control Number: 441', and 'Inpatient' status. A red banner at the top of the error screen states 'Claim has been successfully submitted, but still has errors.' with a 'REVIEW ERRORS' button and an 'ACCEPT AS IS' button. Below this is an 'Error Summary' table with columns for Count, Error Code, and Error Message.

Count	Error Code	Error Message
1	E-672	Invalid Revenue Procedure Code
1	E-648	Missing Admitting Diagnosis
1	E-694	Missing Attending Practitioner First Name
1	E-691	Missing Attending Practitioner Last Name

4 errors in this claim

Accept As Is

ACCEPT AS IS

The screenshot displays the SYSTEM13 web application interface. At the top, a navigation bar includes links for Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. The user is logged in as 'THCIC Trainer 000005' with options for User Management, My Account, and Logout. The main header reads 'THCIC Support Center'. Below this, a breadcrumb trail shows 'Back to list of claims'. The claim details for 'DOE, JOHN' are shown, including Medical Record Number: 441, Patient Control Number: 441, and Inpatient status. A red banner message states: 'Claim has been successfully submitted, but still has errors.' with a 'REVIEW ERRORS' button and an 'ACCEPT AS IS' button. The 'Error Summary' table lists the following errors:

Count	Error Code	Error Message
1	E-672	Invalid Revenue Procedure Code
1	E-648	Missing Admitting Diagnosis
1	E-694	Missing Attending Practitioner First Name

An 'Accept As Is' dialog box is overlaid on the screen, containing the text: 'Please do not confirm until you have attempted to correct all fields with errors and the remaining fields with errors have correct data.' and buttons for 'CONFIRM' and 'CANCEL'. At the bottom left, a red box indicates '4 errors in this claim'.

Accept As Is

ACCEPT AS IS

To mark a claim(s) that has errors, "Accept As Is", the "Accept As Is" button has been added to the claim error screen under claim corrections. You must first review the errors. Then click, "Check For Errors". If the facility cannot make the corrections, "Accept As Is" is an option.

Accepted As Is.

x

Please be advised, even if you remove the claim from correction listing using "Accept As Is", the error(s) in claims that have been "accepted as is" still exist and will go against your accuracy rate during certification. Comments will need to be made at the time of certification, as to why the error(s) weren't corrected.

Accept As Is

ACCEPT AS IS

The claim will be removed from the claim correction list but will still be on the “Claim” listing with a green “A” and a number, which the number indicates how many errors are on the claim and the “A” indicates the claim was accepted as is. Even after a claim has been accepted as is, it can still be corrected by finding the claim on the Claims list and updating the claim.

The screenshot shows the SYSTEM13 interface with a navigation bar containing links: Home, Claims (active), Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. The main header area includes 'THCIC Support Center', a search bar, and buttons for 'SEARCH' and 'ADVANCED SEARCH'. On the right, there are links for 'User Management', 'My Account', and 'Logout', along with buttons for 'NEW CLAIMS IN PROGRESS' and 'ADD NEW CLAIM'. Below this is a table with the following columns: Patient Control #, Medical Record #, Claim #, Started On, Patient Name, In/Out, and Errors. A single claim is listed with the following data: Patient Control # 666, Medical Record # 666, Claim # 202109299998999719000005, Started On 09/29/2021, Patient Name DOE, COOKIE, In/Out IN, and Errors 2A (where 'A' is green).

Patient Control #	Medical Record #	Claim #	Started On	Patient Name	In/Out	Errors
666	666	202109299998999719000005	09/29/2021	DOE, COOKIE	IN	2A

Once this has been updated, check for errors. If the claims still has errors, it will go back to the claim listing. You can also “Accept As Is” again, if the claim still contains errors.

The screenshot shows a red-bordered box with a pink background. Inside, it says 'Claim has been successfully submitted, but still has errors.' Below this text are three buttons: 'REVIEW ERRORS', 'NEXT CLAIM' with a right arrow, and 'ACCEPT AS IS' with a green checkmark. Below the box, the text '693 - Invalid Physician 1 (Operating) Identifier' is displayed in red.

Claim has been successfully submitted, but still has errors.

REVIEW ERRORS NEXT CLAIM → ACCEPT AS IS ✓

693 - Invalid Physician 1 (Operating) Identifier

Start Corrections

When using start corrections, the correction process will go through each claim as they are listed on the Claim Correction listing.

Start Corrections will move sequentially through all claims in the current claims correction list and open the edit screen focused on the first error in the claim. By using Start Corrections followed by SUBMIT and Next Claim all errors can be accessed in order.

The start correction will go through each claim as they are listed on the Claim Correction listing.

Errors in a Claim

- ✓ The errors in a claim will be identified by a pink tint . 
- ✓ When changes are made to a claim's field the changes will be indicated by a faded red tint/ green display. 
- ✓ On the tab that identifies that identifies the different tab of the claim, the number encircled in red will indicate how many errors are on the claim tab, as shown below. 
- ✓ Each claim gives an error count as to how many errors are on the claim at the lower left corner. 
- ✓ By clicking the  , this allows the user to open that part of the claim to make corrections.

Check for Errors

CHECK FOR ERRORS

Clicking check for errors will save the changes. If you do not check for errors, the errors will be updated on the screen but not submitted.

After the user has gone through all errors click check for errors, which checks for errors and resubmits corrected claim.

Always check for errors before moving to the next claim so the error count and error status of the claim will be updated. If the claim is not submitted the error status will not be accurate and the claim will stay on the Claim Correction listing. The claim may still have other errors also. The user must click check for errors for the claim to be checked for errors and to be taken off the claim correction listing, if it no longer has errors.

Check for Errors

CHECK FOR ERRORS

Error – Charges Tab

The screenshot displays the SYSTEM13 web application interface. At the top, a navigation bar includes links for Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. The SYSTEM13 logo is in the top right. Below the navigation bar, the page title is 'THCIC Support Center'. A green bar contains links for User Management, My Account, and Logout. A dropdown menu shows the claim number '202404250038002153488000'. The page is titled 'Outpatient Institutional-ED'.

On the left, a sidebar lists navigation options: Patient, Payers, Charges (highlighted with a red '4'), Diagnoses, Practitioners, and Situational Codes. Below these is an 'Active Errors' section with a list of error messages: '673 - Charges not present for Revenue Code', '671 - Invalid Revenue Code', '685 - Missing Unit Measurement Code', and '676 - Missing or Invalid Unit Quantity'.

The main content area shows a table of charges. The first three rows are: 0250, 0301 HC - 82947, and 0450 HC - 99283. The fourth row is highlighted in red and contains the text '*Resolve audit errors to delete item'. The fifth row is 0730 HC - 93005. Each row has a red 'X' icon in the right column.

To the right of the table is a form for editing the selected charge. It includes fields for: REVENUE CODE: CHECK FOR ERRORS (with a green box), QUALIFIER (dropdown), PROCEDURE CODE (dropdown with placeholder 'Type to search by code'), MODIFIERS (four dropdowns), PROCEDURE DATE (mm/dd/yyyy with a calendar icon), PROCEDURE THRU DATE (mm/dd/yyyy with a calendar icon), RATE (0.00), QTY (0.0), UNIT (dropdown), CHARGE (0.00), and NON-COVERED CHARGE (0.00). A red box highlights the 'REVENUE CODE: CHECK FOR ERRORS' field and the 'QTY' field.

A text box at the bottom of the screenshot states: 'To correct an error on the charges tab, you must make the error correct, before you can delete it. If you want to delete a charge that is already on the claim, just click the X next to the charge line.'

CHECK FOR ERRORS

Submit Claim, but Still Contains Errors

The screenshot shows the SYSTEM13 THCIC Support Center interface. At the top, there is a navigation bar with tabs: Home, Claims, Claim Correction, Reports, Data Mgmt, Certification, Batches, and Help. The SYSTEM13 logo is in the top right corner. Below the navigation bar, the page title is "THCIC Support Center". There are links for "User Management", "My Account", and "Logout". A "Back to list of claims" link is visible. Below this, there are input fields for "Medical Record Number:" and "Patient Control Number:". A red error message box states: "Claim has been successfully submitted, but still has errors." Below this message are two buttons: "REVIEW ERRORS" and "NEXT CLAIM →". To the right of the error message is a button labeled "ACCEPT AS IS ✓". Below the error message, a list of errors is displayed: "784 - The Claim must contain at least one HCPCS code.", "665 - Missing Patient Social Security Number", and "672 - Invalid Service Line Procedure Code".

Click 'Back To List of Claims' to go back to the list of corrections or click 'Next Claim' and the next claim on the Claim Correction listing will be displayed. The next claim will open up to the first error on the next claim. Accept as is, needs to be verified that the claim still has errors, but will be taken off the claim correction listing. It only clears the notification of all the errors in the claim itself. The errors still count against the total accuracy rate in the FER unless it is properly corrected through the Correction Tab, or by submitting a corrected claim batch file through the system.

Accepted As Is.

Claim Successfully Submitted

Claim has been successfully submitted.

NEXT CLAIM →

Claim successfully submitted, you can go to the next claim on the claim correction listing.
