Deleting Laboratory Results in THISIS

In THISIS, it is possible to delete an entire lab report, as well as to delete a single lab result, from a lab report. Deleting an entire lab report in the system is permanent so it is important to understand the difference and know how to perform both skills.

Deleting an Entire Lab Report

Open the Lab Results tab within the event summary screen.

plate: Update: ated By: ort Source	STD LAB TEMPLATE						

A pop-up warning will appear stating, "*This action will delete ALL results for the selected specimen. Do you want to proceed?"* Once you are certain that it is safe to delete all results from the selected specimen, select OK to delete all results from the selected specimen.

NOTE – Deleting a lab result from the Lab Results tab is permanent, and cannot be reversed. Please verify that it is absolutely necessary to delete this lab prior to selecting this option.

Deleting an Individual Lab Result

The following procedures should be used to delete just one result from a lab report.
