1	OBSOLETE DATA RETAINED V0200 No surgical resection done. Evaluation based on endoscopic examination, diagnostic biopsy, including fine needle aspiration biopsy, or other invasive techniques including surgical observation without biopsy. No autopsy evidence used. Does not meet criteria for AJCC pathologic T staging.		c
2	OBSOLETE DATA RETAINED V0200 No surgical resection done, but evidence derived from autopsy (tumor was suspected or diagnosed prior to autopsy).		p
3	OBSOLETE DATA RETAINED V0200 Surgical resection performed WITHOUT pre-surgical systemic treatment or radiation OR surgical resection performed, unknown if pre-surgical systemic treatment or radiation performed. Evidence acquired before treatment, supplemented or modified by the additional evidence acquired during and from surgery, particularly from pathologic examination of the resected specimen. Meets criteria for AJCC pathologic T staging.		p
