CNS Other**CS Site-Specific Factor 1****World Health Organization (WHO) Grade Classification****Note: See page A-151**

Note 1: The World Health Organization (WHO) classification system for tumors of the central nervous system combines tumor nomenclature with an associated grading system, so the actual histologic diagnosis directly correlates with the histologic grade of the tumor. The histologic grade used for staging purposes is not the same code that is assigned as the differentiation code in the sixth digit of the ICD-O morphology code and recorded in the traditional registry Grade field.

Note 2: Code the WHO grade classification as documented in the medical record.

Code	Description
010	Grade I
020	Grade II
030	Grade III
040	Grade IV
988	Not applicable: Information not collected for this case (If this item is required by your standard setter, use of code 988 will result in an edit error.)
998	No histologic examination of primary site
999	Not documented in medical record Unknown; WHO grade not stated
