

Benefits of Participating in the Texas Immunization Registry (ImmTrac2)

ImmTrac2 is Texas' opt-in registry that stores immunization records for children and adults in one convenient secure location.

The Texas Immunization Registry makes a lifetime of Immunization records accessible for:

- Anytime you move or change healthcare providers
- Childcare
- School enrollment
- Traveling
- Military enlistment
- Employment in health and safety fields
- First responders and members of military families
- Anyone displaced by a natural disaster

Infancy

Daycare

School

Employment

Travel

Emergency

Who can participate?

Everyone in the state of Texas can register for the Texas Immunization Registry. Adults, 18 years and older, must complete an ImmTrac2 Adult Consent Form to participate. For adults, consent is required only once and is valid for life, unless consent is withdrawn.

To register children 17 years and younger, parents or legal guardians must sign an ImmTrac2 Minor Consent Form. Consent is required only once and is valid until a child turns 18 years old. Once a person is 18 years old, they may submit an ImmTrac2 Adult Consent Form or their childhood records are destroyed.

Where can I register?

Visit [ImmTrac.com](https://www.immtrac.com) to download and complete the ImmTrac2 Adult Consent Form (F11-13366) or Minor Consent Form (C-7).

Send your completed ImmTrac2 Adult or Minor Consent Form to your authorized healthcare provider, local health department, or DSHS ImmTrac2 Service Offices.

To learn more about ImmTrac2, visit www.dshs.texas.gov/immunize/immtrac, call (800) 348-9158, or email ImmTrac2@dshs.texas.gov.
