

Birth Registrar Local Administrator TxEVER Cheat Sheet

Add a New User:

1. Go to global, Tools —> Security —> User Maintenance
2. Enter new user's information and password
3. Add user's location
4. Add user's contact preferences
5. Create user's security pin (click "Generate Pin")
6. Add user's security processes
 - Hospitals and Birth Centers assign "Birth-Certifier" and "Birth-Clerk" folders
 - Midwives assign "Birth-Midwife" folder
7. Authorize user to complete AOPs
 - Go to Tools —> Security —> AOP User Management
 - Select new user and enter AOP training information. Save
8. Add user to library maintenance table
 - Go to Birth, then Tools —> Library Maintenance —> Certifier/Attendant
 - Click "New" and enter user's information. Save

Reset Password:

1. Go to global, Tools —> Security —> User Maintenance
2. Search for user, select the name, enter a new password, save

Rest Pin:

1. Go to global, Tools —> Security —> User Maintenance
2. Search for user, select the name, click Add/Edit Processes
3. Click "Generate Pin." This resets the pin and emails the user

Unlock, Deactivate, or Reactivate User:

1. Go to global, Tools —> Security —> User Maintenance
2. Search for user, select the name
3. Click "Unlock User" to unlock a user
4. Click "Deactivate User" to deactivate a user. This button then changes to "Reactivate User" to allow reactivation.
